

Expert Fourier Transform Infrared Spectroscopy (FT-IR) Service

FT-IR Equipment-

Shimadzu FTIR-8400
HYPER-IR data processing software for infrared analysis

General Operating Procedure-

Ryss will prepare the customers' samples using its standard procedures. Infrared transmission spectra will be faxed to customers. Originals will be sent via regular mail. We strive for the turn around time of next day (within 24 hours after receipt of sample).

Sample Quantity Requirement-

About 1mg. Samples may be provided to Ryss in either solid or liquid form in appropriate containers with identifications.

Fees-

Standard infrared transmission spectrum \$50 per sample

Expert Analysis and Consulting-

In depth analysis and interpretation of FT-IR is available from Ryss Lab.
